Church of The Epiphany

Rev. Monsignor Jude O'Doherty
8235 SW 57th Ave. Miami, FL. 33143

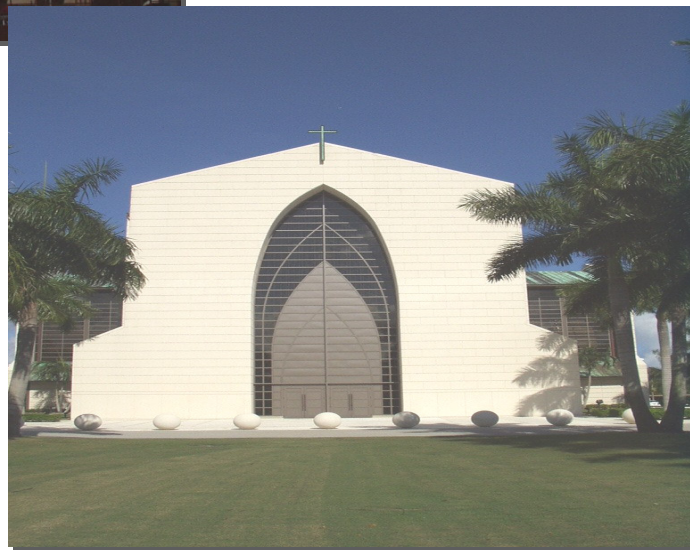

Revelation Sound, Inc. was contracted to install a complex digital-based sound reinforcement system for this premiere church in South Miami, Florida. We worked with the design consultants and project acousticians, Kirkegaard from Chicago, IL. The main speech system is controlled by a Peavey Media Matrix Digital Signal Processor. It provides a signal to the Nave speakers, the Transept speakers, the music system speakers and the outside speaker system. The user interface for the entire system is an AMX wireless touch screen network. The music ministry uses a separate mixing console located in the organ/choir loft which then sends a signal to the Media Matrix DSP for distribution around the Nave and Transepts.

Audio Equipment:

Peavey Media Matrix Mini Frame Digital Processor
Shure U Series Wireless Microphone Systems
Crown K Series Amplifiers
Tascam CD Recorder & Players
Allen & Heath Audio Console
AMX Accent 3 Control System
AKG C747 Microphones

Loudspeakers:

Duran Audio Intellivox 4c Speakers (2)
Duran Audio Intellivox 2b Speakers (2)
Renkus Heinz TRC-61 Speakers (18)
Bose FreeSpace 360P In-ground Speakers (22)
