Miami Vineyard Community Church

Pastor Kevin Fischer
14301 SW 119th Ave. Miami, FL. 33186

With the Vineyard's very contemporary worship format, their new system needed to be capable of handling high SPL and full-range coverage. Renkus-Heinz loudspeakers, backed by EAW subwoofers and Crown amplifiers handled the task. The church auditorium is a transformed warehouse space, and room acoustics played a major role in system design. K-13 acoustic spray on the side and rear walls helped to reduce mid/high frequency reflections, giving the room excellent intelligibility. A complete 'in-ear' monitoring system design assisted in keeping stage volumes down, creating a volunteer-friendly mix environment.

Audio Equipment:
