Church of St. Bonaventure

Rev. Edmond Prendergast, Pastor
1301 SW 136 Ave. Davie, FL. 33325

This new 1600 seat facility was built to provide for the growing Catholic population in the surrounding communities near Davie and Weston Florida. Revelation Sound was contracted by the church to provide acoustic consulting and A/V design services, then to build and install the systems. The mandate from the church was to provide a sound system that would facilitate excellence in the music and spoken word for the Mass. Since the church serves multinational congregations, the Mass is spoken in English and Spanish. The church has seven different choirs, so setup between the choirs had to be quick and easy. These needs dictated a digitally based system with choir presets. The main audio system is controlled by a wireless touch panel.
